Qatar:* draft resolution

Implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa

The General Assembly,

Recalling its resolution 58/242 of 23 December 2003 and other resolutions relating to the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa,[1]

Recalling also its resolution 58/211 of 23 December 2003, in which it declared 2006 the International Year of Deserts and Desertification,

Reaffirming that the Convention is an important tool for poverty eradication, and that desertification contributes to food insecurity, famine and poverty and can give rise to the social, economic and political tensions that are factors in forced migrations and conflict,

Also reaffirming that desertification constitutes a serious obstacle to sustainable development,

Noting that timely and effective implementation of the Convention would help to achieve the Millennium Development Goals, given the concentration of poverty and hunger in the rural, dry and degraded lands of developing countries,

* On behalf of the States Members of the United Nations that are members of the Group of 77 and China.
